#### **Event**

BOT has successfully completed a \$13.5 million single tranche placement through the issues of 103.9 million shares at \$0.13/sh.

Proceeds will be used for preparation for commercial launch activities for Sofdra™, costs and working capital.

## **Impact**

The company now has circa \$23.0 million in pro-forma cash, including the expected \$2.0 million R&D rebate and the \$1.4 million of options exercised post Sep'Q end.

Funds raised will enable BOT to accelerate commercial activities and shorten post approval time to revenue generation.

The company will now be able to engage additional resources across the multiple work streams focused on engaging US payers (insurers), preparing launch marketing and sales materials, testing the telemedicine and supply chain elements and finalising sales strategies.

Submission of the final component required for FDA approval of Sofdra™ remains on target for early 1Q CY2024, targeting FDA approval in mid-CY2024.

#### Action

We maintain our **Speculative Buy recommendation with an updated \$0.30/sh Valuation and Price Target** (prev. \$0.31/sh.), reduced as a result of dilution from the placement.

We continue to see a solid buying opportunity post the recent complete response letter (CRL).

As a reminder, the CRL solely pertained to patient instructions (specifically the instructions paper and product carton wording) — a minor issue in the broader context.

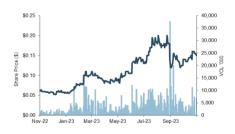

Compared to other ASX-listed cases of CRL's, BOT's appears to be the lowest risk and most manageable. Moreover, the same examples indicate most CRLs eventually secure approval, with precedent of a re-rate following refiling and into approval.

### **Catalysts**

- FDA End of Review Meeting 40 CY23
- Finalise Instructions for Use/Conduct Human Factor Study 4Q CY23
- Re-submit to FDA 1Q CY24
- FDA Approval Mid CY24
